

On what is between: an interdisciplinary dialogue around MA(間)

MA(間) is a very important concept in Japanese culture. It is widely implemented in arts (e.g. music, dance, Rakugo), in architecture (e.g. Japanese zen garden design), and in commercial use (e.g. advertisement). In this symposium, we bring in artists, scholars and scientists for a dialogue on MA(間) in their respective practices.

We will be interested in the place of MA(間) in interpersonal communication, and how to scientifically study this phenomenon.
